

ICE YOUR CELL PHONE!

Cell phones can provide your urgent contact information to emergency workers.

The idea is that you store the word "ICE" in your mobile phone address book, and enter the number of the person you would want to be contacted "In Case of Emergency".

Emergency workers will be able to quickly look at your mobile phone and locate your contact person for proper notification. For more than one contact name, enter ICE1, ICE2, ICE3, etc. To place your ICE numbers at the top of your phone book to eliminate scrolling, simply add a space in front of ICE.

It's so simple that everyone can do it. Please do!

ICE is easy and doesn't cost anything!

We would advise people who wish to use the program to also place pertinent medical and contact information alongside their photo ID.
